

U.S. DEPARTMENT OF TRANSPORTATION

A CLASS BUILT TO HELP YOUR COMPANY SUCCEED

Register Today for this Bonding Education Program **Deadline October 1!**

USDOT is presenting this Bonding Education Program for small business contractors and subcontractors. No construction company can grow without bonding capability, and this Bonding Education Program is strongly endorsed by past students because it offers much more than just bonding information.

This Bonding Education Program is designed to strengthen your company and grow your bonding capacity. You will hear from top executives in construction accounting, contract negotiation, dispute resolution, strategic planning and project estimating. You will also meet one-on-one with a bonding agent to determine a plan to increase

your bonding capacity. The agent will help you assemble the materials needed for a complete bond application.

This program is free to qualified businesses. You are receiving this because we believe you qualify.

Would I encourage other people to come? Yes, yes yes!

"I've learned a lot about contracts, bonding and accounting. We got good advice from some very smart people. We got a lot of insight into business. Would I encourage other people to come? Yes, yes, yes!"

Roger Bartlett, Affordable Concrete
