Construction Estimating & Bidding Workshops

Introductory Workshop: Estimating Basics

Have you been submitting quotes for construction projects but not getting the work? Do you need help figuring out the right cost for your bids? Do you want to start winning more subcontracts? If so, this workshop is a great opportunity to improve your estimating skills. It will help you refine your estimating process and create more accurate bids for construction jobs.

- Estimating set up and details
- Estimating software and bidding
- Errors to avoid
- Bid follow up

Tuesday, December 11, 2018

11am - 1pm (lunch included)

\$25 pp

Denver Metro Chamber of Commerce, 1445 Market St., Denver CO

Register: <https://tinyurl.com/estimating-basics>

3-Part Intensive Workshop: Construction Estimating & Bidding

This workshop series is designed to apply and further develop your estimating skills. It will help you create an accurate and competitive estimating process so you can increase the number of estimates you put out, as well as the quality, accuracy and competitiveness of your estimates. We'll use a mock project so you can relate to real life scenarios.

Part 1: Pre-estimate planning and quantity take-off (part 1)

Part 2: Take-off (part 2) and pricing your take-off

Part 2: Overhead, profit, margins, and markups and preparing your estimate

Wednesdays, January 16, 23, 30, 2019

11:00am – 4:30pm (lunch included)

\$175 pp (includes workbook and drive with estimating worksheets)

Denver Metro Chamber of Commerce, 1445 Market St., Denver CO

Register: <https://tinyurl.com/estimating-intensive>

Expert Instructors

Bob Smith has more than 25 years of experience in the construction industry and has assisted hundreds of small businesses with developing estimating processes and submitting accurate bids for construction projects.

Rex Davis has worked in the construction industry for over 45 years in numerous capacities as part of the labor and management forces working up through an apprenticeship program to becoming a project manager before starting his own business. He is an expert in construction estimating and offers workshops all across the country.
